Subject: EA Class of 1996 Website - Let Your Voice Be Heard!

OK, we're finally ready to collect class-wide input for reunion ideas. Since we have people all over the country and it's not practical for everybody to attend meetings, we've implemented a survey feature on the website (did we mention how awesome the website is?). So here's the plan... we need you to hop onto the website, login, and fill out [this survey](#). Once we have a pool of ideas from all of you, the next phase will be to allow classmates to vote on those ideas via another survey at a later date.

This will take you 1 minute (2 if you answer the last question). If you still need your login credentials, please [email Dan](#) or one of the [other admins](#) to get it.

This is important, we have to have this input in order to put together an event that represents what everybody wants to do. Otherwise, we'll end up with a lousy turnout because nobody likes the plan. Or worse yet, we'll have to scrap it altogether.

Please note that there is a budget question with a "pay as you go" option. Choosing that option is perfectly fine. But it may limit our options a bit and make reservations challenging as it would make it more difficult to accurately gauge attendance ahead of time.

Additional Info About Our Surveys

Some of our surveys will be "public" (anonymous) and some will be for classmates only (requires login). This one is for classmates only because we don't want non-96ers submitting ideas.

You can modify your responses and re-submit them if you change your mind later on.

And soon you'll be able to view survey results as they're being collected.
